

Wanna help us out ?

2011/12/7 9:27 - admin

Do you have some High quality objects, scenes, textures, presets that you want to share with the community ? Perhaps you have a large collection of objects or photographs that you do not use and wouldn't mind sharing? Give something back to the Lightwave community and upload them here at BLR. Use the [contact form](#) if you have any question and use the green "+" key to Upload the content you would like to share. If you are logged in you can also just press **CTRL-SHIFT-U** to directly go to the upload page. Here's a video to guide you through the process :
